Senior Frontend Developer with 10+ years of experience in building scalable, high-performance web applications. Expertise in delivering quality solutions in fast-paced startup environments. Strong leadership skills with a focus on team collaboration and achieving business objectives.

EXPERIENCE

Euler, London, UK— *Senior Frontend Developer*

March 2022 - March 2024

- Led the frontend development for a high-traffic web application, creating scalable and maintainable UI components that supported a growing user base.
- Collaborated closely with product managers and UX/UI designers to ensure seamless and intuitive user experiences.
- Implemented performance optimizations, such as code-splitting and lazy loading, significantly improving load times and site performance.
- Mentored junior developers, providing guidance on best practices and fostering a collaborative environment.

BigchainDB, Germany— *Senior Frontend Developer*

January 2020 - February 2022

- Led the development of a real-time customer portal, enhancing user engagement and increasing the active user base.
- Integrated RESTful APIs with frontend applications, optimizing data flow and improving user interactions.
- Delivered a custom UI component library that streamlined development processes and enhanced consistency across the platform.
- Collaborated with backend teams to improve API performance, optimizing response times and system efficiency.

Checkr, United States— *Frontend Developer*

July 2017- December 2019

- Spearheaded the migration of the core application from AngularJS to React, improving maintainability, scalability, and development speed.
- Introduced automated testing with Jest and Cypress, enhancing code quality and reducing production bugs.
- Designed and implemented a modular frontend architecture that reduced technical debt and sped up future development cycles.
- Worked closely with cross-functional teams to align frontend features with business objectives and customer needs.

Shyp, United States— *Frontend Developer*

March 2016 - June 2017

- Developed key features for a customer-facing e-commerce platform, ensuring a responsive, mobile-first application that improved customer

SKILLS

JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, Zustand, Recoil, Tailwind CSS, Material UI, Chakra UI, Framer Motion, React Query, SWR, GraphQL (Apollo Client, Relay), RESTful APIs, WebSockets, Vite, Webpack, Jest, React Testing Library, Cypress, Playwright, ESLint, Prettier, Git, GitHub/GitLab, Docker, CI/CD (GitHub Actions, Jenkins, CircleCI), Vercel, Netlify, AWS Amplify, Monorepo Tools (Nx, Turborepo).
